# TRUE WORKSTATION PERFORMANCE AT AN UNBEATABLE PRICE

## THINKSTATION® E20—TOP REASONS TO OWN

- BETTER VALUE
- HIGHER RELIABILITY
- STRONGER PERFORMANCE
- EASIER ON THE ENVIRONMENT

## THE LENOVO® THINKSTATION® E20

Meet the new Lenovo ThinkStation E20, a power-packed workstation with beyond-desktop attributes in reliability and performance. The E20 is equipped to meet specialized needs such as coding and compiling business applications, designing graphics, 3D modeling and producing engineering designs. The ThinkStation E20 packs true workstation performance at an unbelievably affordable price.

Enhance your workstation performance with a new family of Intel processors that support unparalleled professional-grade integrated graphics, or enjoy eye-popping visuals with the latest discrete graphics from NVIDIA®. Take advantage of the ThinkStation's full potential in 2D / 3D imaging capabilities with Digital Content Creation (DCC) and Computer Aided Design (CAD) applications and begin raising the bar on productivity today.

The ThinkStation E20 is the ultimate tool for quickly boosting ROI. Certification of your specialized applications from independent software vendors yields an extra layer of reliability on your mission-critical projects. Achieve greater reliability and protection against memory-related errors with DDR3 ECC memory, thereby improving system uptime and maximizing your productivity. The E20 is also equipped with stronger storage capabilities, offering up to two hard disk drives with capacity up to 2TB and RAID standard, resulting in blazing fast, yet reliable performance. The small-form factor design with front and rear handles makes it convenient for you to move the E20 with ease, thus providing excellent portability should the need arise.

The ThinkStation E20 is the environmental champion of its class, designed to provide you with improved performance and at the same time warranting adherence to environmental safety norms. It is GREENGAURD® certified for preserving indoor air quality and features many Energy Star® 5.0 models. The E20 is certified Gold by the EPEAT® organization and complies with REACH for meeting the required environmental performance criteria and ensuring prudent use of energy. Built with over 65% recycled plastic, the ThinkStation E20 re-affirms Lenovo's strong commitment to environmental protection.

The ThinkStation E20 is designed to cater to your specialized needs, at the same time providing superior reliability and support to your applications.

The ThinkStation E20's exceptional performance, cutting-edge technology, price-affordability and environment friendliness coupled with Lenovo's outstanding services, make it the right choice for your business's design and computational needs.
